# Dressing Skills

## Task Analysis Data

### Forward Chain

**Instructions:** Write in the target skill (e.g., "Putting on a Shirt") at the very top of the page and write in each step of that skill from **beginning to end**. An example step you would list as #1 could be checking the clothing tag on the shirt to make sure the shirt is facing the right way. Record a **(+)** for each **independent correct** response, or record which type of prompt was used if a prompt was needed (see abbreviations). At the bottom of each column to determine the percentage of independent responses for the entire task, divide the total number of number of independent responses by the total number **of steps (e.g., 16 INDEPENDENT RESPONSES / 20 TOTAL STEPS)**.

**TARGET SKILL:** \_\_\_\_\_

Types of Prompts (Abbreviations)					
<b>Physical: PH</b>	<b>Visual: VIS</b>	<b>Model: M</b>	<b>Vocal: VOC</b>	<b>Positional: POS</b>	<b>Gestural: G</b>
**Refer to FIRSTPATH online glossary for further information about The Prompt Hierarchy.					

**WEEKLY DATE:** \_\_\_\_\_ TO \_\_\_\_\_
