* **Intro MT:** the date the target was introduced to the child

** **Mastery RR:** is the date the child completed 3 consecutive random rotation trials at with 80-100% independence.

Maintenance: When all targets are mastered, reduce frequency of the presentation of the program to child systematically, ensuring that the child maintains skills by maintaining mastery scores of 80-100% before decreasing frequency further. (e.g. 5 times per week to 4 times per week for a month, to 3 times per week for a month to 2 times per week for a month, to once a week for a month, to generalized settings.)
